

See how that works? The little size 4 green squares are the leaves! They are only added when we get to the end of the branch.

```
1 function drawBranch(l, direction) {  
2   c.save();  
3   c.fillRect(-1, 0, 2, -1);  
4   c.translate(0, -1);  
5   if (l > 5) {  
6     drawBranch(l * 0.8, -direction);  
7     c.rotate(0.5 * direction);  
8     drawBranch(l * 0.7, -direction);  
9   } else {  
10    c.fillStyle = "green";  
11    c.fillRect(-2, -2, 4, 4);  
12  }  
13  c.restore();  
14 }  
15  
16 c.translate(200, 250);  
17 drawBranch(50, 1);  
18
```
